

The River Nile

The longest river in the world. The one that started a great civilization. Read on to find about the River Nile.

[Facts about the Nile](#)

The River Nile is the longest river in the world. It is formed from the White Nile which originates at Lake Victoria and The Blue Nile which originates at Lake Tana Ethiopia. These rivers meet in Sudan and then go on their long journey through Egypt and into the Mediterranean Sea.

[The Importance of the Nile.](#)

Without the water of the Nile Ancient Egypt would not have existed. Everything the farmers grew depended on the Nile. Every year the Nile flooded and left behind rich dark soil on both sides of the river. People depended on the Nile for transport as well as water.

[Gods of the Nile.](#)

Ancient Egyptians thought that Hapi was the Nile God but Sobek was considered the crocodile God and the Nile God. People think the Goddess Isis made the Nile overflow with her tears so the Egyptians celebrate this each year with a festival called The Night of the Drop.
