

# TUTANKHAMUN

Tutankhamun came to the throne when he was only nine years old when his father Akhenaton died. He brought order back to the country and let the Egyptian people believe in the old gods again. Tutankhamun's body was found in a nest of three mummy cases in a sarcophagus. He died at the age of eighteen.

In 1922 the English archaeologist Howard Carter made an amazing discovery... He found the tomb of the young pharaoh, Tutankhamun and he found the amazing things from Pharaoh's life. Howard Carter found the tomb after five years of searching. Howard Carter found weapons, clothes and furniture in the tomb. By Neve S
