

Tutankhamun

Tutankhamun came to the throne when he was only 9 years old because his father Akhenaton died.

He restored order to the country so Egypt became calm again and people were able to worship their own gods again. Tutankhamun was buried in the Valley of the Kings alongside other Pharaohs. Tutankhamun was buried in three separate coffins.

Howard Carter finally discovered the tomb of Tutankhamun in 1922. He found the tomb after 5 years of searching. Most people did not believe Howard Carter would find the tomb.

Amazingly, Tutankhamun's tomb was untouched by robbers. His tomb contained fabulous treasures made of gold. His body was found inside a nest of three mummy cases inside a sarcophagus. Tutankhamun is probably the most Pharaoh of all.
